LUBRIPLATE has developed a complete line of high performance, high and low pressure anti-wear hydraulic oils with excellent oxidation and thermal stability, water tolerance and hydrolytic stability and resistance to yellow metal corrosion. These LUBRIPLATE Hydraulic Oils meet the requirements of:

**DESCRIPTION**

**OEM**
- Vickers (Eaton)
- General Motors
- Cincinnati Machine
- Bosch Rexroth
- German Steel Industry
- DIN 51524
- AFNOR NF E 48-603
- U.S. Steel
- SAE

**SPECIFICATION**
- M-2950-S & I-286-S
- LS-2
- P-68, P-69, P-70
- RE 90 220
- SEB 181222
- Part I & II
- Part I & II
- No. 126, 127, 136
- MS 1004

**APPLICATIONS**
These LUBRIPLATE Hydraulic Oils are designed for high performance, anti-wear hydraulic operations. These products minimize the formation of sludge and other corrosive breakdown products which can cause reduction of pump life, filter blocking, and interfere with efficient hydraulic power transfer. This is especially true of Servo valves in modern equipment where the close tolerances between valve assemblies can be hindered by even very low concentrations of sludge. These LUBRIPLATE “HO” Oils are also designed to resist the hydrolyzation of the combination of additives, high operating temperatures and the unavoidable, ever-present, moisture in hydraulic systems which, if not controlled, causes corrosion in phosphor-bronze parts and reduces the anti-wear performance, thus reducing pump life significantly.

**ADVANTAGES**
- High performance anti-wear properties
- Oxidation and thermal stability
- Excellent filterability in fine filtration systems
- Demulsibility
- Hydrolytic stability for extended fluid life
- Extended pump life
- Resistance to yellow metal corrosion.

**PACKAGING AVAILABLE**

**HO-32**
- Carton, 4/1 Gallons: L0770-057
- 5 Gallon Pail: L0770-060
- 55 Gallon Drum: L0770-062

**HO-46**
- Carton, 4/1 Gallons: L0771-057
- 5 Gallon Pail: L0771-060
- 55 Gallon Drum: L0771-062

**HO-68**
- Carton, 4/1 Gallons: L0772-057
- 5 Gallon Pail: L0772-060
- 55 Gallon Drum: L0772-062
