LUBRIPLATE SYNXTREME HT MAX PLUS is a completely fluorinated synthetic lubricant specially formulated to provide effective long-term lubrication to equipment exposed to temperatures in excess of 260°C.

**ADVANTAGES**
- Excellent Thermo-Oxidative Stability
- Low Volatility
- Excellent Compatibility with Plastics and Elastomers
- Chemically Inert Towards Chemicals & Fuels
- Non-Flammable
- Non-Melting Thickener

**SAFETY**
LUBRIPLATE SYNXTREME HT MAX PLUS does not contain hazardous ingredients. If fumes are generated at elevated temperatures, ventilation is required. See the Safety Data Sheet for additional safety related information on this lubricant.

**STORAGE RECOMMENDATIONS**
- Products should be stored between 40°F-120°F
- Products should be stored in a dry covered environment
- Products should not be stored in warm, direct sunlight
- Improper storage conditions can significantly alter the shelf life of the product. Such conditions would include temperature, moisture, open containers, etc.

**SPECIFICATIONS**
The typical properties reported on this technical data sheet should not be used for preparing specifications on this lubricant. Please contact LUBRIPLATE for assistance in preparing a specification.

**PACKAGING AVAILABLE**
Carton – 1 28 oz. Cartridge

**Part No.**
L0332-002

LUBRIPLATE SYNXTREME HT MAX PLUS contains no components derived from TSE/BSE relevant animal species; therefore, it is compliant with the requirements of the TSE Note for Guidance EMA/410/01 Rev. 3 July 2011.
